

SAJJAD KHALDOON

PETROLEUM ENGINEER

Sajad.khaldoon.hano95.com | 07707700743 | Basra City

PROFESSIONAL OBJECTIVE

Petroleum Engineer with a B.Sc. with distinction, specialized in reservoir and drilling operations. **Highly skilled** in integrating **digital workflows**, **AI**, and **data analytics** (**Python**, **MATLAB**) into upstream engineering. Adept at designing **digital field control interfaces** and delivering impactful **technical presentations**, training materials, and daily **operational reports**."

TECHNICAL SKILLS

Reservoir Engineering :

- Reservoir Simulation
- Geomechanical Modeling
- Upstream Oil and Gas Operations
- Measurement and Calibration Methods

Drilling Engineering:

- Geomechanical Modeling
- Drilling Operations
- Design, Wellbore Stability
- Well Control (BOP)
- Technical Instruction: Subject Matter Expert Lecturing & Professional Training Delivery.
- Reporting: Daily Drilling & Operations Report Writing

Documentation & Layouts: Engineering Presentations, Technical Documentation, and Professional Visual Layouts.

Engineering Programming:

- Python
- Java
- claude

Artificial Intelligence (AI):

- AI Applications in Upstream Oil & Gas.

Digital Workflows:

- Digital Field Control Interface Design
- Dashboards.

Data Analytics & Visualization:

- Advanced Microsoft Excel.

Production Data:

- Analyzing and processing complex field data for decision-making.

EDUCATION

B.Sc. Graduation Project – Petroleum Engineering | Almaaqaal University | June 2026

Investigated and analyzed various

types of separation techniques and surface equipment used in oil and gas processing facilities.

Evaluated phase separation efficiency (oil, gas, and water) and operational parameters to optimize fluid processing performance.

Delivered a comprehensive engineering study as part of a **4-year degree** program, graduating with distinction.

EDUCATION

Drilling Engineering Intern : IDC / Eni / SLB / Halliburton / BOC | Zubair Field – Rig 56 | 2025 (3 Months)

Participated in an intensive 3-month field training program on Rig 56 at Zubair Oil Field, covering full-cycle drilling engineering operations.

*Collaborated with multidisciplinary teams from major international operating and service companies (**Eni, SLB, Halliburton, BOC**, and **IDC**).*

Observed and analyzed wellbore construction plans, rig equipment functionality, drilling fluids hydraulics, and well site procedures.

Engaged in real-time troubleshooting strategies for wellbore stability issues and operational drilling challenges.

Gained practical knowledge in HSE protocols, well control procedures, and casing/cementing execution during live operations.

PROFESSIONAL EXPERIENCE & PROJECTS

Drilling Engineering Intern : IDC / Eni / SLB / Halliburton / BOC | Zubair Field – Rig 56 | 2025 (3 Months)

Participated in an intensive 3-month field training program on Rig 56 at Zubair Oil Field, covering full-cycle drilling engineering operations.

*Collaborated with multidisciplinary teams from major international operating and service companies (**Eni, SLB, Halliburton, BOC**, and **IDC**).*

Observed and analyzed wellbore construction plans, rig equipment functionality, drilling fluids hydraulics, and well site procedures.

Engaged in real-time troubleshooting strategies for wellbore stability issues and operational drilling challenges.

Gained practical knowledge in HSE protocols, well control procedures, and casing/cementing execution during live operations.

CERTIFICATIONS & ADDITIONAL INFORMATION

- Geomechanical Modeling (2026)
- HSE Certification, oil pipe line company (OPC)
- Directional Drilling Certification, Society of Petroleum Engineers (SPE)
- Water Injection Certification, Society of Petroleum Engineers (SPE)
- Hydraulic Fracturing Certification, Society of Petroleum Engineers (SPE)
- ISO Project Management Participation Certificate
- Professional Design Engineer (PDE) License
- Project Management Tech (PMT)
- Structural Process Design (SPD)
